# Getting Started

## The Podcast

The focus of the podcast is to bring together the Dragon Age community and highlight builders and modders. We bring you discussion and interviews with both established and new and upcoming modders along with reviews of completed mods. The podcast started with a team formed from the [Neverwinter Nights Podcast](#) [1].

## Dotte

Dotte is one of our newscasters. We don't know if she plays games.

## How we cover costs

Matt really hates ads, and doesn't want to make you see any here. As we move on, there will be donation opportunities to keep the community going. For now, just enjoy the ad-free site.
